

NEW NANO GREENS¹⁰ IN-VIVO ANTIOXIDANT RESEARCH PRESENTED AT INTERNATIONAL SYMPOSIUM

A study entitled, "Antioxidant properties of complex nanosized phytonutrient supplement in animal model", by A. Krylov, et. al., of Institute of General Pathology and Pathophysiology and the Cardiology Research Center, Ministry of Health, both in Moscow, Russia, is being presented at the International Symposium, "Functional Food in Europe-International Developments in Science and Health Claims" on May 9-11, 2007, in Malta.

The poster presentation demonstrates significant pre and post changes, including:

- 1) increases in *in vivo* total antioxidant capacity in plasma
- 2) increases in S.O.D. levels in the liver
- 3) lower plasma triglycerides.

NANO GREENS¹⁰ ORAC: 8256 PER SERVING! (688/GM x 12GM)

BioPharma is the only functional food company that posts on line its *in vitro* antioxidant, microbial and heavy metals analysis on every run, noting "from unopened, sealed container" to prevent the possibility of sending in adulterated samples for analysis.

Terry Witzu, DDS
Silver Medalist 2006
Masters Heavyweight Division
Ringside World Boxing Championship

"I am 57 and have been training very hard for the Ringside World Boxing Championship in August. I plan on winning the heavyweight belt this year! I have been taking NanoGreens¹⁰ for a few months now and I have not since been afflicted by the colds and flues that usually surround my day as a practicing dental surgeon. Recently, I have felt an unusual amount of fatigue. However, after increasing my consumption of NanoGreens¹⁰ to twice daily and resting, I am feeling my strength return in just 2 days!"

"I took the convenient foil packages on holiday with me to Cuba. I consumed one package per day with six ounces of water. Despite the increase in calories and reduction in training, I emerged from the holiday without the energy lag that I usually experience. In fact my wife does not use NanoGreens¹⁰ and she felt poorly a few days after our return!"
